

Configure Price Quote

Empower Sales. Quote Faster. Win More Deals.

DealHub connects pricing, approvals, and contracts—enabling sales teams to generate accurate quotes, streamline approvals, and accelerate deals.

Key Benefits

The CPQ sellers trust Intuitive, flexible, and designed to simplify complex pricing and approvals.

- 01 **Faster Time-to-Value**

Deploy CPQ quickly with no-code configuration and native CRM integrations, reducing IT dependency and accelerating adoption.
- 02 **Ensure Seller Adoption**

Drive fast adoption with guided selling, in-app collaboration, and real-time deal visibility, empowering sellers with intuitive workflows.
- 03 **Deliver Accurate Quotes**

Eliminate errors with automated pricing rules, line-level customization, and approval workflows, ensuring precision across every quote.
- 04 **Improved Customer Experience**

Deliver fast, tailored quotes with clear pricing, seamless approvals, and a modern buying experience that eliminates friction.
- 05 **Protect Margins**

Maintain profitability with built-in pricing guardrails, smart discounting, and structured approvals that prevent revenue leakage.
- 06 **Scale Revenue Growth**

Scale revenue with automated renewals, co-terminations, and flexible bundling that optimize upsell and cross-sell opportunities.

Capabilities

The CPQ That Simplifies Quoting and Adapts to Every Sales Motion

- Quote Configuration Engine**

Streamline quoting with intuitive guided selling, smart filters, and hierarchical product structuring for faster, more accurate quoting.
- Adaptive Pricebook**

Support multi-dimensional pricing structures, including usage-based, tiered, and fixed models, to handle any sales scenario.
- Quoting for Every Sales Motion**

Generate accurate quotes for new business, renewals, co-terms, expansions, and contract amendments all within one solution.
- Configurable Bundles & Discounts**

Create competitive offers with product bundling, dynamic discounting, and approval-aligned pricing strategies for optimized deal execution.
- Automated Approval Workflows**

Speed up approvals with parallel workflows, real-time collaboration, and one-click approvals for faster deal execution.
- Dynamic Line-Level Customization**

Maintain accuracy with version-controlled order forms, real-time quote updates, and detailed line-item management.
- Partner & Channel Quoting**

Enable channel partners with scalable, controlled quoting—ensuring consistency across indirect sales teams.
- Deal Desk Dashboard**

Gain complete deal visibility with real-time insights into quote progress, approval status, and sales momentum.
- Headless API Quoting**

Automate quoting across e-commerce, self-service, and PLG models with API-powered configuration and pricing.

What could take a full business day before can now be done in 10 minutes.

Austin Cook Kiessig
Senior Director Revenue Operations

With simplicity comes efficiency. Our reps have saved over 70% of their time in building quotes.

Jay Schieve
Director, Sales Operations

We see a 99.3% close win success rate when the opportunity has a signed DealHub proposal attached to it. That is phenomenal.

Julie DiNicola
Director of Sales Operations & Strategy
